

PANHANDLE CATTLE

Big Opportunity for Successful Sales in
Cattle States—Panhandle Cal-
ifornia Are in Favor.

Judge O. H. Nelson returned yesterday from an extensive trip through the cattle belt states in the interest of "his superior excellence" the Panhandle yearling. Judge Nelson visited the stock sales centers in Iowa, Illinois, Indiana and Ohio and helped along the good opinion that stock feeders in that section already have of Panhandle feeder cattle.

The good qualities of Panhandle feeders were first signally demonstrated in 1901 when Dan W. Black, of Lyndon, Ohio, won the grand prize over all exhibitors at the International Livestock show with a bunch of Panhandle cattle prepared for market in Ohio feed yards. Since then it has been no trouble to attract buyers from that section for Panhandle stuff.

Through the corn raising sections of Indiana, Illinois and Ohio stock feeding in recent years, has become an industry of constantly increasing importance. The farmers there are careful feeders, know just the kind of an animal that will make the best returns and are quick to pick up feeder stuff of the kind that suits their needs. Some of the larger feeders have begun making trips every fall to the Panhandle to secure the stock they want. The smaller feeders who are in a big majority are forced to depend on Chicago or other markets and must pick up their stuff at second hand. Judge Nelson has been becoming acquainted with the various sales centers in this region and has been making arrangements whereby Panhandle cattle can be offered for sale directly to the feeders within easy reach of their farms and feed yards. The sales at Fort Madison, Iowa, and Elmore, Ohio, were notably successful this year and next year any Panhandle stockman can place cattle on market at no great expense to himself.

Judge Nelson is one of the 500 men who subscribed \$100 to the support of the International Livestock Exposition at Chicago. He now wears the badge of a life member in this great organization, the "American Royal" as it has been called, and urges every stockman who can to attend the exposition. The stock show this year opens on Dec. 1 and continues till Dec. 8.

Elks Memorial Postponed.
For obvious reasons, the local lodge B. P. O. E. has postponed the memorial service till Sunday a week from tomorrow. Full announcement of the program and speakers will be given next week.

persons are known to have been
killed and it is feared others lost
their lives while several were se-
riously injured in a wreck on the

son, a negro, was found guilty
today of criminal assault upon Mrs.
Georgia Membre, a white woman,
last August, and he was sentenced

Camp, who was assaulted and beaten

American Manilans Indignant.

Manila, P. I., Dec. 1.—American
residents of this city are indignant
at the order sending away the United
States Asiatic squadron for the
holidays as the merchants here
wanted the sailors to remain in
Manila for business. The English
fleet has sailed for Singapore. While
in Manila the entertainment of its
officers and men was on a lavish
scale.

from which she died in an hour. She
was crossing the track to reach a
passenger train when she was struck
by a locomotive backing in.

PHILIPPINES CAPTURED

Government Forces Surprise Chief Pablo's
Camp and Kill and Capture Many
of His Band.

Associated Press.

Manila, P. I., Dec. 1.—A force of
cavalry, under the command
of Major Murphy, surprised the
camp of Pablo, chief of the Pul-
ajanes on the island of Samar, at day-
light yesterday, Nov. 30. Eleven
Pulajanes were killed and the chief's
son and nine of the band wounded.
Chief Pablo, himself, escaped, but
his wife and daughter were cap-
tured. The clothing, arms and pa-
pers found were destroyed together
with the camp.

The capture of Chief Pablo is con-
sidered a question of only a few
days. There is now only one other
chief at large and plans have been
arranged to capture or kill him.
Governor Curdy, of Samar, wires
that the breaking up of Chief Pablo's
band signals the death knell
of Pulajanes on the island.

Some Missouri Bad Weather.

William Easton exhibited a couple
of photograph postals yesterday sent
from his daughter in Missouri that
ought to cause Amarillo people to
chiver up. Mrs. Nowlin, Mr. Easton's
daughter, lives in Montgomery City,
Mo., and the pictures were taken
in the streets of the town after a
recent snow storm. The streets
were strewn with wreckage from
trees, telephone and electric light
poles. This was caused, Mrs. Now-
lin writes, "not by wind but by
sleet." On one tree which she in-
dicated, the coating of ice was by
actual measurement found to be an
inch thick. This weight of ice simply
broke down and splintered trees
and poles so that the pictures show
the town to look as if a cyclone had
passed through it.

A FACT PROVEN.

Should Convince Even the Most Skep-
tical of Its Truth.

If there is the slightest doubt in the
minds of any that Dandruff germs do not
exist, their belief is compelled by the
fact that a rabbit inoculated with the
germs became bald in six weeks' time.
It must be apparent to any person
therefore that the only prevention of
baldness is the destruction of the germs—
which act as successfully accomplished
in one hundred per cent. of cases by
the application of Newbro's Herpicide.
Dandruff is caused by the same germ
which causes baldness, and can be pre-
vented with the same remedy—Newbro's
Herpicide.

cause you remove the effect."

DO GOOD WORK

Pastor's Association Gives Re-
port of Relief Fund—Sto-
ries of Suffering.

DISEASE, WANT, HUNGER

And Misfortune Are Alleviated By the Help
Of the Association—Plan for Big
Christmas Offering.

At the union Thanksgiving service
Thursday morning, Rev. E. B. Fin-
cher read the following interesting
report of the good accomplished by
the fund raised at the Thanksgiving
service last year.

We submit the following report to
the citizens of Amarillo. The
items mentioned below made up the
fund last year:

Money contributed by Elks . \$100.00
Money from Thanksgiving of-
fering 54.00
Money contributed by Chas.
J. E. Lowndes 5.00

\$159.00

The account at present stands:

Money expended \$119.75
Money on hand 49.75

Will Make Effort for Xmas Offering

The Pastor's Association feels that
the fund should receive a generous
replenishing before Christmas this
year. The Thanksgiving meeting
would have given the fund ample
means for carrying on the work this
year had the weather not seriously
interfered so that it was impossible
for people to attend the meeting.
There is a deep interest in the work
Amarillo people have a keen sym-
pathy for the unfortunate and this
association has proven its ability to
accomplish more good with the same
money than could otherwise be done.
Preparations are being made now
for a systematic offering to be made
some time before Christmas.

Is a Sacred Trust.

The money given to this associa-
tion is considered a sacred trust and
is used wisely. Each case is investi-
gated carefully and if found worthy
is relieved. The following are some
of those who have been given the
helping hand during the year just
closed.

How the Fund Was Used.

A consumptive was here looking
for a check from home. He had
waited several days and used up all
his money. He was hungry, sick and
thirsty. The association found him
for a few days until his check
came, gave him an overcoat and the
needed medical attention.

A mother, almost a stranger in
town, died and left two babies in
rags. A part of her funeral ex-
penses were paid and her mother-
less children clothed.

A man with two incurable dis-
eases eating away at his vitals was
fed for a month and his suffering
relieved as far as man was able to
do so.

A woman and child came with a
sick husband thinking that the al-
titude might restore him to health.
She was taken sick and was in a
pitiable condition. She was furnished
a nurse for ten days.

One of our own citizens who had
been unfortunate, lost a child with
fever. Shortly after his only re-
maining child fell a victim to the
same dread disease. The parents
were exhausted by nursing the first
sick one. The association helped to
pay for a trained nurse that saved
the life of the little one.

A poor fellow with tuberculosis

sought our pleasant summer cli-
mate in hopes of recovery. Summer
passed but no relief came, winter
arrived with dampness, ice and
snow. His money had been spent
and the doctors said he could not
get well. He longed for home and
friends. The association sent him
back to die at home.

An Appeal for Present Year.

These are some of the cases that
have used your money and there are
many others. If you feel like help-
ing in a good cause you may turn
your money in to this benevolent
organization. The Master went
about doing good and so should we.
Money handed to any of the pastors
will be placed to our credit. All the
banks will receive money also and
put it to our account. "He that
giveth to the poor lendeth to the
Lord." Fraternally yours,
E. B. FINCHER, Sec-Treas.

Colbert, of Louisiana, cousin of Miss
Jennie Colbert, of Anson, and R. V.
Colbert, of Stamford, has been ap-
pointed railroad agent by the Wich-
ita Valley. Mr. Colbert stated that
they were now hauling passengers
and freight to and from Anson, hav-
ing a mixed train with one passen-
ger coach attached. Said there was
as yet no schedule, but that the train
would leave Anson at 6 o'clock a. m.
or later, and arrive here daily at 7
p. m. or later. Mr. Colbert says
they wish to arrange for good ser-
vice for Anson as soon as possible.

ARMY-NAVY FOOTBALL

Cadets of West Point and Annapolis Meet
in Combat on the Gridiron This
Afternoon.

Associated Press.

Philadelphia, Pa., Dec. 4.—Black,
gold and gray, of the army and blue
and gold of the navy, are flying
everywhere in Philadelphia in honor
of the football match on Franklin
field this afternoon between the ca-
dets of West Point and Annapolis.
Despite the threatening weather, an
enormous crowd, the largest which
ever attended an army and navy
game, on the University of Pennsylv-
ania's famous gridiron is expected.
Hundreds came in yesterday and
last night and thousands arrived on
the morning trains while the great-
est number came from Washington
and included assistant secretaries of
the war and navy departments, rear
admirals, major generals and offi-
cers of all the other grades down
to plain privates.

ONE MORE USE FOR SEAWEED.

Made Into Stuff That Passes for
Citron and Is Called Ceatron.

Seattle, Wash., Nov. 30.—Another
use has been discovered for seaweed.
It is hereafter to be used as a deli-
cacy. The Christmas puddings of
coming holiday times will be made
palatable with expurgated essence
of seaweed. In the grocery stores
it will be labelled "ceatron." But
the grocer probably will give it to
you when you ask for citron. Exit
the citron, enter the seaweed ceat-
ron.

A company has been organized
which will make ceatron at Ballard,
a suburb of Seattle. The inventors
of the process are Theodore C. Frye
and Carl E. Magnusen, professors
at the University of Washington.

The ceatron, and the process of man-
ufacture will be interestingly shown
at the Alaska-Youkon-Pacific Ex-
position, which is to be held in
Seattle in 1909 for the purpose of
exploiting the little-known resources
of the northland.

Free to You and Every Sister Suffering
From Women's Ailments.

The seaweed will be gathered in
the summer time and dried on the
shore, then stacked under shelter
for some weeks until it becomes cov-
ered with a white, saline efferves-
cence. At this stage of the proceed-
ing, the seaweed is known as kelp.
The next step is to burn it, in a
round brick-lined pit or kiln, and
as the weed softens it is stirred with
a hot iron until it becomes a semi-
fluid mass. It is then cooled and
broken into pieces, and lo, there

you have your ceatron, and it would
take a mighty good fudge to tell it
from citron.

When salt was dear, kelp used
to be valuable for soda, which was
used in soap-making. Now soda can
be made cheaper than salt. Kelp is
used extensively in the manufacture
of iodine and chloride of potassium.
A ton of kelp yields eight pounds of
iodine. These other uses of sea-
weed will be illustrated at the Ala-
ska-Youkon-Pacific Exposition.

A DALLAS CO. GETS IT

The Commercial Club Awards Privilege of
Directory Making—Good Work
Is Promised.

SATURDAY.

The directors of the Commercial
Club, in session yesterday afternoon
awarded the privilege of preparing
and publishing the official directory
of the city of Amarillo to the John
F. Worley Publishing Company of
Dallas. S. C. Chapman, represent-
ing the Southwest Directory & Pub-
licity Co., a local organization, and
Mr. Stanton, representing the Dallas
company, both presented their propo-
sitions to the club and asked of-
ficial sanction. After a complete
hearing of both claims, the directors
decided that inasmuch as the direc-
tory required facilities which the
Amarillo company could not guaran-
tee, the needs of the town would
be best served by the Dallas com-
pany.

The mechanical work about a di-
rectory require facilities which at
present cannot be secured nearer
than Fort Worth or Dallas. The
typographical work must be exact
and book making must be carefully
done by experienced workmen. Few
printing companies care to take the
job of printing a directory unless
they make a specialty of the work.

The Dallas company is an ex-
perienced directory maker and Ama-
rillo is assured a creditable and use-
ful volume. Mr. Stanton wired yester-
day for five men from the Dallas
office to begin the house to house
canvass and census taking. The work
will begin Monday morning and will
be pushed to completion. Amarillo
people will confer a favor on the
census takers and will make the
completed volume more valuable by
giving all information possible that
can be used in the directory.

PERSONAL MENTION.

J. W. Hill, of Paris, is here on
business.

Orville Newell, of Hereford, is in
town today.

W. B. Beach came up last night
from Hereford.

Jeff Smith was in town yesterday
from Canadian.

Now Reeves was over from Can-
yon yesterday.
